www.adlerarms.com

When our story began, Adler was nothing but just a small place with 5 workers. Innovation and passion make Adler one of the pioneer company of industry. With thinking out side of the box perspective, we produced and introduced first 12 Ga lever action shotgun. Adler is not a company which produces and exports shotguns. We care about customers satisfaction. Today we have countless satisfied customer,distributor in 29 countries in 5 continents. We are trying to bring Adler products together with new customers in every other country.

We are using machines with advance technology with good quality materials to produce firearms for different type of use to respond every necessity of different users. Adler produces different type shotguns with different calibers. Our types are semi auto ,pump action,lever action,single barrel,Over& Under with 12-20-.410 Ga. Experience we have from past will help us to create our new path on rifle industry. Adler is redefining rifles with its own point of view. We will launch our new rifles with 22lr and 308 calibers. With 95 staff and 5000 square meter indoor space, we are doing our best for our customers.

From USA,CANADA to AUSTRALIA, we are proud of being indispensable choice of customers. With great passion, Adler aim for the best all the time.

We believed that we could achieve great success in shotgun industry. We started and made our every single decision with passion. That passion became our companion in this way. An idea in the past became an aspiration. With that aspiration we became more and more succesful. Today Adler Arms Company reflect its achivement and experience to every single gun and satisfy its customers in 25 counties in 5 continents. Experience and passion we had in the past will enlight our way.
